ECU Testing From £45.00 + VAT

ECU's made free running From £85.00 + VAT

We test all makes and models of ECU's we recommend an ECU test to determine whether it's a visible choice to replace the ECU.

Our Diagnostics equipment can identify fault codes within an ECU unit, which helps us to identify the fault.

For a list of EODB fault codes [click here](#) or to learn more about our diagnostics equipment you can go [here](#).

Please [contact us](#) for any information.
